Everybody has experienced a silent voice in their mind encouraging them to act in an immoral or unlawful manner. It is ultimately up to ourselves whether we will give in and act in the latter fashion or resist, obey and act righteously.

Single **LUNA** recorded by Severals deals with and contemplates such states of mind. The song itself consists of **melodic parts** representing pleasant feelings, which then contrast with **guitar riffs and rough vocals** representing violence, anger and aggression.

This new **Severals'** single has been recorded in *Pidgeon Army studio* under supervision and guidance of Ronald Janeček. Mixing and Mastering of this single was done by Denmark based producer **Chris Kreutzfeldt**.

In the music video the audience can witness **4 storylines**, each representing a different state of mind. One can thus identify themselves with either part of the story and come up with their own interpretation. The **individual stories** are interconnected by a beastly animal, which is regarded as the dark side of the human mind and is present in each of the 4 plots.

The videoclip was recorded by the very talented *Václav Čtvrtník* and directed as well as edited by the frontman of Severals, *Dominik Fencí*. The recording was done in several locations in the vicinity of Pilsen including the locations previously used in the **Habitat** music video.

This new release may be simultaneously considered as an announcement for the release of a new album, which will be out **at the end of this year**.

Severals are preparing for the upcoming months with **shows planned in both Pilsen and Prague**. The exact dates have been posted on the band's official Facebook page.
